

# AMSTERDAM DENTAL GROUP

---

August 2016

Dear Friends,

It is with great pleasure and excitement that we welcome you to Amsterdam Dental Group and the same sense of family you've come to expect through the years with Family Dental Associates.

As you may already have learned, our practices recently partnered and we are now settled together in our newly remodeled and expanded state-of-the art facility where we offer our shared commitment to providing the highest quality patient care.

For those of you who may not be familiar with our practice, there is great harmony between Amsterdam Dental Group and Family Dental Associates – starting with us both having long and

well-known histories in the dental community. Since our founding more than 60 years ago, Amsterdam Dental Group has taken an innovative approach to dentistry. One might say it's in our DNA. Following in the footsteps of Dr. Morton Amsterdam, our professional staff continues the decades-long tradition of expertise and innovation – providing a carefully crafted blend of science and art in dentistry.

Like Family Dental Associates, we at Amsterdam Dental Group take great strides to stand apart in both patient care and service. Our practice will continue to care for all of your general dentistry needs and routine cleanings. In addition, our new partnership brings specialists in Periodontics and Prosthodontics to the team. This offers both the convenience and expertise of having procedures, such as dental implants, advanced restorative/cosmetic dentistry and periodontal therapy all within one practice. Together, we are committed to embracing the newest advances, including the latest in digital dentistry and minimally invasive dental implants - MIDI. The result - we make sure patients are comfortable, relaxed and receive the finest care possible.

On behalf of our entire staff, we welcome you and are here to answer any questions. Thank you for being part of our new extended family.

Sincerely,

Dr. Harold Baumgarten

Dr. Caleb Cross

Dr. Howard Fraiman

Dr. Barry Moskowitz

Dr. Jeffrey Ingber

Dr. Fedele Musso
